

Preparing database

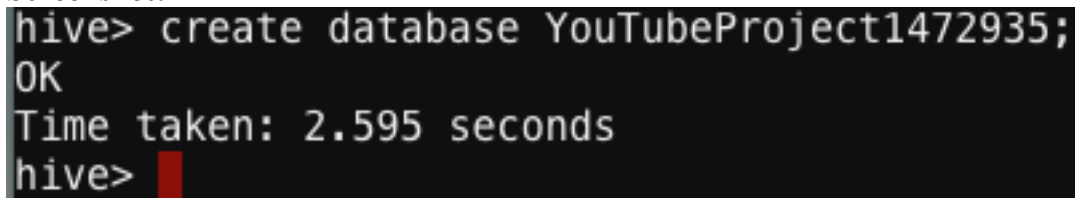

Step 1:

Create Database

Command:

```
create database YouTubeProject1472935;
```

Screenshot:

A screenshot of a terminal window showing the execution of a Hive command. The text is as follows:

```
hive> create database YouTubeProject1472935;  
OK  
Time taken: 2.595 seconds  
hive> █
```

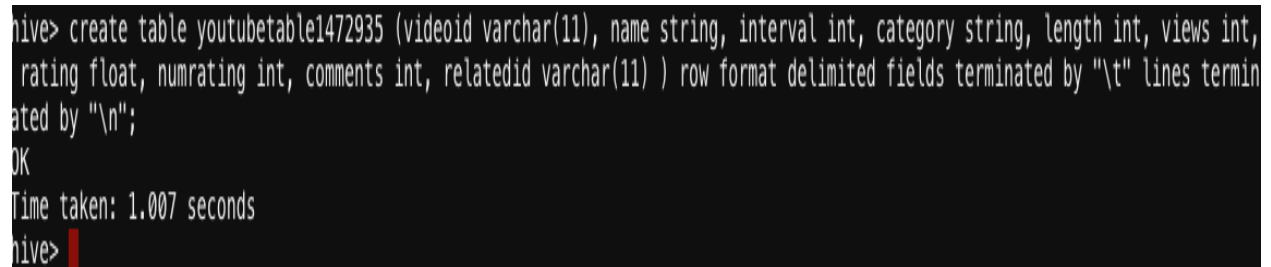

Step 2:

Create Table with the specified fields

Command:

```
create table youtubetable1472935 (videoid varchar(11), name string, interval int, category string,  
length int, views int, rating float, numrating int, comments int, relatedid varchar(11) ) row format  
delimited fields terminated by "\t" lines terminated by "\n";
```

Screenshot:

A screenshot of a terminal window showing the execution of a Hive command. The text is as follows:

```
hive> create table youtubetable1472935 (videoid varchar(11), name string, interval int, category string, length int, views int,  
rating float, numrating int, comments int, relatedid varchar(11) ) row format delimited fields terminated by "\t" lines termin  
ated by "\n";  
OK  
Time taken: 1.007 seconds  
hive> █
```

Step 3:

Load data into table

Command:

```
load data local inpath " /mnt/home/edureka_1472935/YouTube_Analysis_Project  
/youtubedata.txt" into table youtubetable1472935;
```

Screenshot:

```
hive> load data local inpath "/mnt/home/edureka_1472935/YouTube_Analysis_Project/youtubedata.txt" into table youtubetable1472935;
Loading data to table default.youtubetable1472935
Table default.youtubetable1472935 stats: [numFiles=1, totalSize=969389]
OK
Time taken: 0.896 seconds
hive>
```

Solutions:

A. Find out the top 5 categories with maximum number of videos uploaded.

Command:

```
Select category, count(*) A from youtubetable1472935 group by category order by A desc limit 5;
```

Screenshot:

```
hive> Select category, count(*) A from youtubetable1472935 group by category order by A desc limit 5;
Query ID = edureka_1472935_20210425184949_de2d5aa0-b589-4405-a799-d27e8d0e986e
Total jobs = 2
Launching Job 1 out of 2
Number of reduce tasks not specified. Estimated from input data size: 1
In order to change the average load for a reducer (in bytes):
  set hive.exec.reducers.bytes.per.reducer=<number>
In order to limit the maximum number of reducers:
  set hive.exec.reducers.max=<number>
In order to set a constant number of reducers:
  set mapreduce.job.reduces=<number>
```

Result:

```
Total MapReduce CPU Time Spent: 8 seconds 80 msec
OK
Entertainment    908
Music            862
Comedy           414
People & Blogs   398
News & Politics  333
Time taken: 73.526 seconds, Fetched: 5 row(s)
hive>
```

B. Find out the top 10 rated videos.

Command:

Select videoid, rating from youtubetable1472935 order by rating desc limit 10;

Screenshot:

```
hive> Select videoid, rating from youtubetable1472935 order by rating desc limit 10;
Query ID = edureka_1472935_20210425185252_f41c6ae6-a17d-49fc-adc3-cf5826a90d3a
Total jobs = 1
Launching Job 1 out of 1
Number of reduce tasks determined at compile time: 1
In order to change the average load for a reducer (in bytes):
  set hive.exec.reducers.bytes.per.reducer=<number>
In order to limit the maximum number of reducers:
  set hive.exec.reducers.max=<number>
In order to set a constant number of reducers:
  set mapreduce.job.reduces=<number>
```

Result:

```
Total MapReduce CPU Time Spent: 5 seconds 410 msec
OK
geUY_es0rt0      5.0
osqnkdc349s     5.0
wzUyV42Izz4     5.0
dh6dF1XY3uI     5.0
L3mR8syHNIg     5.0
YZev1imoxX8     5.0
gP0jnBrVEpI     5.0
Y_hAXbgxXp8     5.0
lD3GuCoJxT4     5.0
3TYqkBJ9YRk     5.0
Time taken: 30.765 seconds, Fetched: 10 row(s)
hive>
```

C. Find out the most viewed videos.

Command:

Select videoid, views from youtubetable1472935 order by views desc;

Screenshot:

```

hive> Select videoId, views from youtubetable1472935 order by views desc;
Query ID = edureka_1472935_20210425185959_6bd79cbb-1800-4dd6-98dc-2270e6f7f653
Total jobs = 1
Launching Job 1 out of 1
Number of reduce tasks determined at compile time: 1
In order to change the average load for a reducer (in bytes):
  set hive.exec.reducers.bytes.per.reducer=<number>
In order to limit the maximum number of reducers:
  set hive.exec.reducers.max=<number>
In order to set a constant number of reducers:

```

Result:

```

Total MapReduce CPU Time Spent: 5 seconds 360 msec
OK
